

Transcript for Dr. Auth Testimonial Video

My name is Doctor Jeffrey Auth. I'm at my chiropractic office in Dillon, Colorado. I became a chiropractor because I wanted to help not only myself but others avoid painful surgery and medications. That's why we have qualified massage therapists here in the office, as well as nutritional counseling. In my office, patient-centered-healthcare is an all-encompassing way of treating the body. So a holistic approach to health.

The reason I brought spinal decompression into the office was for my own condition. I had been diagnosed with 3 herniated discs. I had surgery five years previous. I decided I did not want to go down that road again. Another reason why we brought DRS into the County is because we have the most active patients, probably in the United States, right here. I think it is kind of amazing that nobody had already thought of this.

With regards to patients who have apprehension about the DRS Protocol. Many of these patients have already undergone painful injections, possibly surgery, physical therapy and chiropractic for years...and I'm seeing those patients respond well to care as well. Here at Auth Chiropractic, we don't just treat the symptoms, we treat the cause.
