

Transcript for E.Buras Testimonial Video

I'm Ellen, and I needed to find treatment for my back due to bulging discs. I wanted to try the DRS Protocol Treatment because it's naturally healing your back instead of using meds and/or injections. Everyone here, in this office, is just fantastic. Dr. Auth is just a godsend. Not only has he been through the same situation but so have some of the ladies in the office. Everyone was just incredibly caring and understanding. I actually felt for the first time that something was actually gonna change. When I started I was just totally inactive. Because every time that I tried to walk or to...gosh do anything that was really physically demanding in any way; my back would go out. When I say my back would go out I mean it would literally freeze up and it was like my life just basically stopped.

Since completing the DRS, I lost 15 pounds. This is actually really emotional because there have been so many changes. I have almost gotten up to 2 miles walking, I kayak. It has completely changed my life back to what it was before. I mean to come here and be able to see light at the end of that long tunnel. It has been amazing. I know that I can talk to my Doctor about exactly how I feel and what this has been like. And for him to be able to even shed a tear himself with me, has just been overwhelmingly awesome. I have my life back. Thanks for being there every step of the way.
